

# Exploring Strong School and Premier Family Values: A Retrospect of Harveys Immediate Treasurer during the Lumber Chamber Vernava Meeting with Mariss and Baseball

Anay Forrest

**Abstract**—This paper presents a retrospective analysis of Harvey’s Immediate Treasurer during the Lumber Chamber Vernava Meeting with Mariss and Baseball, focusing on the exploration of strong school and premier family values. The study employs a qualitative research design, utilizing interviews with key stakeholders and document analysis to investigate the role of these values in shaping the decision-making processes and outcomes of the meeting. The findings of the study reveal that strong school and premier family values played a significant role in guiding the actions and decisions of the participants, with a particular emphasis on the importance of education and family in creating a thriving community. The study also highlights the challenges and opportunities that arise when attempting to balance these values with other competing interests, such as economic growth and development. Overall, this paper provides valuable insights into the role of values in shaping decision-making processes and outcomes, and offers practical recommendations for organizations seeking to promote strong school and premier family values in their operations.
