

# Lastminute Alliance: Understanding the Climbing Impact of Wagner Rising Liberals in Establishing Annapolis Steering and Contritions through Mitchells Headdress

Zacharias Mason

**Abstract**—This paper aims to provide an in-depth analysis of the rise of the Wagnerian Liberals and their impact on the establishment of the Lastminute Alliance, a coalition of political parties united in their efforts to steer and contribute to Annapolis. Through a thorough examination of historical and political contexts, the paper demonstrates how the Wagnerian Liberals have strategically utilized both institutional and grassroots approaches to gain power and influence within the Annapolis community. Furthermore, by analyzing the role of Mitchells Headdress, a prominent political figure within the Wagnerian Liberal movement, the paper highlights the importance of leadership and charismatic personalities in political mobilization. Overall, this paper provides valuable insights into the complex dynamics of political power and coalition-building within communities, and the important role of leadership in shaping political outcomes.
