

Growth and Devotion in November: A Collection of Proposes Preached by a Veteran in Moscows Average Cidates, Gloriana and Wagners Merrygoround with Deloris.

Domhnall Zayn

Abstract—This paper presents a collection of proposed sermons preached by a veteran pastor in Moscow during the month of November. The sermons focus on the themes of growth and devotion, and are aimed at the average citizens of Moscow. The sermons were delivered at three different locations: Gloriana, Wagners Merrygoround, and with Deloris. The paper explores the pastor's approach to preaching and his use of scripture to convey his message. It also examines the impact of the sermons on the congregation and their response to the messages presented. Through this collection of proposed sermons, the paper provides a unique insight into the role of religion in Moscow and the way in which it shapes the lives of its citizens.
